

Guarantee

This is to certify that we, the PRECISION APPARATUS COMPANY, INC., Elmhurst, L. I., N. Y., U. S. A., guarantee this Instrument, manufactured by us, to be free from defects in material and workmanship under normal use and service. Our obligation under the guarantee is limited to repairing or replacing this instrument through the Service Department, Precision Apparatus Co., Inc., Elmhurst, L. I., N. Y., U. S. A., provided that original purchase has been duly registered and instrument is returned *prepaid* within one year from date of sale. *Stamped and addressed registration card is furnished with every instrument.*

This guarantee is expressly in lieu of all other guarantees, expressed or implied and of all other obligations on our part, and no other Representative or person is authorized or permitted to make any guarantee or to assume for this Company any liability not strictly in accordance with the foregoing.

This guarantee will not apply to any product which has been tampered with or altered in any way, or which has been subjected to misuse, negligence or accident, or which has the serial number altered, effaced or removed.

PRECISION APPARATUS COMPANY, INC., Elmhurst, L. I., N. Y., U. S. A.

PRECISION TEST EQUIPMENT IS

MODEL NO. **E-200-C**

GUARANTEED FOR ONE FULL YEAR

SERIAL NO. **40998**

IMPORTANT

The Precision warranty benefits can only be extended to properly registered equipments. Upon receipt of this instrument, immediately fill in and mail the self-addressed and stamped registration card.

NOTICE—To Purchasers of “PRECISION” Tube Testers

Take note of special supplementary tube charts appended to the instruction book, for tubes not listed on the roll chart.

New supplementary charts are issued approximately every 5 to 6 months. New roll charts are edited and printed at less frequent intervals depending upon the rate of new tube releases.

NEW TUBE TEST DATA is always available, at no charge, upon request of registered owners. In order to assure receipt of the appropriate charts for your instrument, always mention the model and serial number of the tube tester plus the date of your present roll chart as it appears at the upper left corner of the roll chart.
